Join us to generate new thinking and pathways by reflecting on the political and pedagogical essence of the Reggio Emilia Approach in relation to the rich history and unique bi-cultural heritage of early years and primary education in Aotearoa New Zealand.

Encounter inspiring perspectives and stories of practice.
Participate in collective art experiences and creative workshops.
Engage in reflective and generative dialogue that reimagines the future.

Contribute to the generation of new landscapes of possibility; landscapes where all children are valued and are active participants of diverse and democratic communities.

“We must develop the capacity to dialogue with difference; it is our everyday commitment in the workplace that helps us to see the beauty, the spirit and the desire in children”.
Claudia Giudici, President of Reggio Children

Conference Registration $590
(including lunches, morning and afternoon teas)
